Years of development work have paid dividends, as with Krono Xonic we are able to offer a genuinely high-tech article that is more scratch-resistant and robust than most other floors and is naturally 100% waterproof. Consequently, Krono Xonic represents a new generation of vinyl flooring that provides an impressive combination of the advantages of synthetic material with the aesthetics of parquet flooring. It stands out due to an authentically natural look and maximum abrasion resistance class. Indeed, Krono Xonic is the only vinyl flooring in the Utilization Class 34* and is perfect for any setting including commercial premises, bathrooms, kitchens and entrance halls.

① Stable in every regard.

The core of Krono Xonic is formed by a hard panel that offers easy installation, and in combination with the proven Top Clic system, furnishes excellent stability:

- New generation rigid vinyl flooring: no softening agents or toxins, no panel shrinkage
- High level of dimensional stability, very minor thermally induced dimensional changes
- Easiest click vinyl on the market to install
- No telegraphing

② HD digital printing.

As a result of the very latest digital printing technology, with Krono Xonic we have also set new benchmarks with regard to aesthetic quality. Flooring has to look great and Krono Xonic appears so real that not even a carpenter's trained eye would recognize the difference.

- Two pore-free compound layers, the perfect substrate for HD digital printing
- 3D optics
- Ideal for large areas in commercial applications

First class flooring with a guarantee.

Krono Xonic was subjected to long-term, comprehensive testing and we are proud of the results. These not only relate to quality and user-friendliness but with the vinyl itself, directly to its impact on the environment. Krono Xonic is entirely free of plasticizers and therefore can be fully recycled. Ten international patents protect the product design and technology.

30 years* Warranty All Krono Original® floorings have been put through intensive testing, in order that they conform to international quality standards. Therefore, we provide a comprehensive warranty on all our products. You may rest assured that irrespective of your choice of floor, it will be simple to care for and furnish you with many years of satisfaction.

Stain and imprint resistant You can relax, as even the most problematic of stains caused by red wine, oil, coffee or nail varnish can be removed easily. Krono Original® floorings are also unbelievably abrasion-resistant and durable. It has been proven that they number among the toughest products currently on the market. Even the heaviest furniture does not leave any indentations (please use felt pads and in the case of swivel chairs, soft casters).

Top Clic The Krono Original® Top Clic system has been specially designed to ensure that the laying of your vinyl flooring is as simple and effortless as possible. The Clic profile flush links the individual panels in a quick and uncomplicated manner that is also form locking.

Anti-slip class Safety is one of our major priorities. Accordingly, as a result of specially developed structures with an anti-slip class rating, the demands made on flooring in workrooms and working areas subject to an increased danger of skidding are taken into even greater account.

A.B.C. Anti-Bacterial Coating Keeping your flooring as clean and free of bacteria as possible is

naturally a major concern. The Krono Original® A.B.C anti-bacterial coating deprives bacteria of a breeding ground and provides you with the peace-of-mind that derives from having healthy surroundings.

Microscratch Protect The extremely robust surface safeguards your flooring with even greater certainty against the micro-scratches that can be caused by mechanical loads.

Digital Design Experience precise design in first class HD quality. Modern printing ensures razor-sharp resolution and brilliantly stylish patterning. As a result of printing diversity, up to sixty differing panels per design are possible. This lends your flooring an authentic appearance that is virtually free of repetition and close to nature. Truly eye-catching!

For intensively used living areas For example landings, entrance halls, hobby rooms, kitchens, etc.

5 mm: For flooring subject to intensive use in commercial premises For example stores, restaurants and workshops, etc.

4 mm: For flooring subject to medium use in commercial premises For example offices, conference rooms, hotel rooms etc.

* Krono Xonic 5 mm: 30 year residential and 5 year commercial warranty, Krono Xonic 4 mm: 20 year residential and 2 year commercial warranty, according to our terms of guarantee
